STARTING MP3

LOGISTICS

- Notes on submissions
- CSS Default styles
- Project checkins
- Create work groups

Reminder: No in-person class on Tuesday!

ACADEMIC DISHONESTY

- Submitting a link before the deadline to a writeup that does not exist is *dishonest*
- Submitting a link after the deadline to a writeup that does exist: *not dishonest*

REMEMBER...

- Canvas takes screenshots of any link you submit!
- We can see your git commit history!
- No, you cannot change it!
- This is GOOD if you finish/commit your project and forget to submit a link; leave a note saying "look at my commit history"

CSS DEFAULT STYLES

- Remember: The browser puts default styles on various HTML elements!
- You can remove them! For example:

```css
body {
  margin: 0;
  overflow: hidden;
}
```

SHORT DEMO

MP3

- Intended to pracice using a dev toolchain
- Must include two external libraries
  1. A game
  2. Data viz
  3. Something else? Let me know!

PROJECT BRAINSTORMING!

- Add your project idea to the spreadsheet *here*

CHECKINS

EXAMPLES

- Game: https://github.com/branchwelder/example-game
- Viz: https://github.com/branchwelder/example-viz
